# Biography

Donnie P. realized early on in his career that he was equipped with the tools, drive, and determination to start a business from concept to completion without any capital. Upon graduating from Southern University, A & M College in Baton Rouge, Louisiana, with a degree in Psychology, Donnie founded his first million-dollar company Community Case Management, an adolescent substance abuse counseling service to help teens get to the heart of their substance abuse, equipping them with the right coping skills to stay clean, and pursue productive lives. Soon after, he would also create the company Preventive Medical Services, a community-based medical health center that provided services

to low-income families with Medicaid. In 2007, Donnie launched A Plus Home Care Services along with his brother and Caring Home Services' a national franchise rollout which he later sold.
